Summary

Computer Science with Artificial Intelligence student with hands-on experience building Python automation tools, React business applications, ERP-style dashboards, and PDF/DOCX report generators. Seeking remote internships, part-time roles, freelance projects, or contract work involving AI automation, React, Python, internal tools, and practical business software.

Skills

- Languages: Python, JavaScript, HTML, CSS
- Frameworks and libraries: React, Vite, Supabase, Django basics, ReportLab, python-docx
- Tools: Git, GitHub, GitHub Actions, VS Code, Codex, ChatGPT, CLI tools, AI-assisted development
- Technical areas: REST APIs, PostgreSQL, ERP development, dashboard development, responsive web design, UI/UX design, automation, PDF/DOCX generation, prompt engineering, basic testing, CI/CD basics, technical documentation

Projects

Rental Research Report Generator | Python, ReportLab, python-docx, JSON

- Built a Python automation tool that collects public rental listing data and converts it into a ranked housing decision report.
- Implemented filters for rent range, listing type, commute distance, furnishing, deposit, and unsuitable categories such as PGs, hostels, and shared rooms.
- Generated English and Tamil PDF/DOCX reports with ranked properties, monthly budget, first-month setup cost, verification checklist, and source links.
- Used structured JSON output so reports can be regenerated and extended across multiple formats.

Portfolio Website | HTML, CSS, JavaScript

- Created a clean developer portfolio for internships, freelance work, and part-time developer roles.
- Highlighted project proof, skills, resume links, and contact actions in a recruiter-friendly layout.

Printing Press ERP / Business Management System | React, business workflows

- Built and deployed a business management system for printing press workflows, dashboards, and operational tracking.

Timber Calculator | Web app

- Built a practical calculator for timber-related measurements and quick estimates.

Education

- B.Sc. Computer Science with Artificial Intelligence, Rathinam Global, Coimbatore - 2028
- Relevant coursework: Artificial Intelligence, Programming, Data Structures, Web Development, Database Systems

Additional

- Availability: Remote internships, freelance work, part-time developer roles
- Languages: English, Tamil
