

First 5 Opportunities Review

Date: 2026-07-05

Source: Day 1 from `daily\_application\_plan.md` and `active\_opportunities.csv`.

No applications have been submitted.

1. Freelancer Client - Custom Visitor & Task Management Apps

- Link: <https://www.freelancer.com/jobs/python/>
- Salary/stipend/rate: USD 238 average bid
- Remote/part-time status: Remote freelance/contract; part-time not specified
- Why it fits: Excellent ERP/business software fit: visitors, tasks, dashboards, status tracking, PDF/badge output.
- Risk/scam check: Medium-high freelance risk. Check client history, milestone payment, scope clarity, and avoid unpaid work.
- Resume to use: Startup
- Project to highlight: Printing Press ERP / Business Management System
- Custom message angle: Show that you understand small-business workflows and can deliver a simple MVP with milestones.
- Recommendation: Apply

2. Freelancer Client - Custom Website Automation Software Development

- Link: <https://www.freelancer.com/jobs/python/>
- Salary/stipend/rate: USD 238 average bid
- Remote/part-time status: Remote freelance/contract; part-time not specified
- Why it fits: Strong match for Python automation, logging, APIs, and practical workflow tooling.
- Risk/scam check: Medium-high. Apply only if automation is legal, safe, and allowed by target site terms. Avoid account abuse, spam, gambling, or crypto schemes.
- Resume to use: Startup
- Project to highlight: Rental Research Report Generator
- Custom message angle: Position yourself as someone who builds safe automation with config, logs, error handling, and documentation.
- Recommendation: Maybe

3. AIT Global India Private Limited - Product Management / AI-assisted Product Intern

- Link: <https://internshala.com/internships/work-from-home-software-development-internships/>
- Salary/stipend/rate: INR 45000-50000/month
- Remote/part-time status: Remote internship; part-time not specified
- Why it fits: Strong AI-assisted development, GitHub, REST API, QA, integration, and product-thinking match.
- Risk/scam check: Medium. Public verification on 2026-07-05 did not find AIT Global on the current Internshala category page, so a direct logged-in listing must be found before applying.
- Resume to use: Startup
- Project to highlight: Printing Press ERP / Business Management System
- Custom message angle: Show business workflow thinking, AI-assisted development discipline, and ability to translate requirements into working tools.
- Recommendation: Maybe / manual verification required

4. Cloud Back - Python Development Intern

- Link: <https://internshala.com/internships/work-from-home-software-development-internships/>
- Salary/stipend/rate: INR 10000-20000/month
- Remote/part-time status: Remote internship; part-time not specified
- Why it fits: Direct Python/Django/Flask/API match with good learning value.
- Risk/scam check: Medium. Public verification on 2026-07-05 found Cloud Back, but the visible snippet showed Java Development, not Python Development. Confirm the exact role before applying.
- Resume to use: ATS
- Project to highlight: Rental Research Report Generator
- Custom message angle: Lead with Python automation, report generation, structured data, testing, and willingness to learn backend APIs.
- Recommendation: Maybe / verify exact role first

5. FileSure India Private Limited - Tech Support & Operations Intern

- Link: <https://internshala.com/internships/work-from-home-software-development-internships/>
- Salary/stipend/rate: INR 5000-10000/month
- Remote/part-time status: Remote internship; part-time not specified
- Why it fits: Good first-interview target for production debugging, backend-adjacent support, and operations exposure.
- Risk/scam check: Low-medium. Confirm it includes real software debugging/technical operations, not only customer service.
- Resume to use: ATS
- Project to highlight: Rental Research Report Generator

- Custom message angle: Emphasize careful debugging, documentation, Python/Node/Mongo familiarity, and clear remote communication.

- Recommendation: Apply

Best 3 To Apply First

1. Freelancer Client - Custom Visitor & Task Management Apps
2. Cloud Back - Python Development Intern, only if the direct listing is still Python/backend work
3. AIT Global India Private Limited - Product Management / AI-assisted Product Intern, only if a direct active listing is found

Skip / Caution

Do not apply to the automation freelance project unless the exact task is safe, legal, and does not violate another website's terms.
