Summary

Computer Science with Artificial Intelligence student building Python automation tools, React dashboards, ERP-style workflows, and PDF/DOCX report generators. Strongest proof: rental research automation with filtering/scoring logic, offline sample data, generated reports, and unit tests.

Skills

- Languages: Python, JavaScript, HTML, CSS, TypeScript basics
- Frontend and data: React, Vite, Supabase, ReportLab, python-docx, Django basics
- Tools and areas: Git, GitHub, GitHub Actions, VS Code, CLI tools, AI-assisted development with manual verification, REST API basics, PostgreSQL basics, ERP workflows, dashboards, testing, documentation, Docker basics, GSAP basics, Framer Motion basics

Projects

Rental Research Report Generator | Python, ReportLab, python-docx, JSON

- Built a Python automation workflow that normalizes rental listing data, filters unsuitable options, ranks matches, and generates PDF/DOCX decision reports.
- Implemented scoring/filters for rent range, listing type, commute distance, furnishing, deposit practicality, and unsuitable categories.
- Generated English/Tamil outputs with ranked properties, budgets, verification checklist, source links, offline sample data, and unit tests.

Printing Press ERP / Business Management System | React, Supabase, JavaScript, Vite

- Built and deployed React/Supabase business software screens for printing press workflows, dashboards, and operational tracking.
- Modeled local-business workflows including inventory, production tracking, order operations, and role-based access concepts.

Portfolio Website | React, Vite, Framer Motion, GSAP

- Created a public developer portfolio and one-tap links page with project proof, resume links, GitHub, LinkedIn, live demos, and contact actions.

Education

- B.Sc. Computer Science with Artificial Intelligence, Rathinam Global University, Coimbatore - 2028
- Relevant coursework: Artificial Intelligence, Programming, Data Structures, Web Development, Database Systems

Additional

- Availability: Immediate; remote internships, freelance work, part-time developer roles, contract projects around college schedule
- Languages: English, Tamil
